

Hello Friends

We truly had high hopes that when we secured EIDL funds and multiple grants this past spring that we would be able to 'ride the wave' as we weathered through this pandemic. We reduced our staff, reduced hours, cut as many expenses as we could. We worked really hard to be efficient and mindful in creating a clean and safe environment for you and ourselves.

Unfortunately, an integral piece to making this 'new puzzle' that is small business work, is that we keep the virus at bay. I so wish that were our reality! Instead, cases and spread are growing.

So, we are going to be shutting our doors for a while. We think it is best to preserve what EIDL funds we have left in hopes something can change with this pandemic so we might have a chance to try again.

Until that day, we have a handful of scheduled birthday parties we will be hosting over the next few weeks as long as MDHHS restrictions allow.

We also will be booking private groups. Information on private rentals are available in the QR code:
